

This stacked area chart illustrates the growth of clinical trials from 2000 to 2023. The y-axis represents the number of trials, ranging from 0 to 100,000. The x-axis shows the years from 2000 to 2023. The chart is divided into eight categories: Total Trials (light gray), Early Phase 1 (blue), Not Applicable (orange), Phase 1 (green), Phase 1/Phase 2 (red), Phase 2 (purple), Phase 2/Phase 3 (brown), and Phase 3 (pink). The total number of trials shows a significant upward trend, starting around 10,000 in 2000 and reaching nearly 100,000 by 2023. The 'Not Applicable' category shows a sharp increase starting around 2015, becoming the largest single category by 2023. The 'Phase 2' category also shows a notable increase, particularly after 2015. The 'Phase 1' and 'Phase 3' categories show steady growth, while 'Early Phase 1' and 'Phase 1/Phase 2' remain relatively stable and smaller in number.

Year	Early Phase 1	Not Applicable	Phase 1	Phase 1/Phase 2	Phase 2	Phase 2/Phase 3	Phase 3	Total Trials
